The network consists of three major nodes, one in Italy and one in Sweden. Each node is made of a dynamic group of nodes under the control of a single admin. Its main purpose is to provide an arena for market houses to exchange products and services with each other. It connects to other Darknet markets like OpenBazaar, MasterMarket and TheSilkRoad2 through various brokers and is currently running on the Tor network. ## Installation The normal installation process for the node is to download the ZIP file and decompress it to [` /tmp/`]_. Once the file is decompressed, copy it to [` /opt/`]_ for system-wide installation. ## Configuration The configuration is done by editing the [` /opt/config/farms.yaml`]_ file. ## List of nodes The list 6d1f23a050
